Continuation Sheet (PTO-303)

Application No. 10/763,424

Continuation of 3. NOTE:

Under 112(1): "Exhibit A" was not found in the response filed 6/21/07, accordingly the Examiner cannot comment on the" Exhibit A". From the Exhibit A summery in the remarks filed 6/21/0, the "exhibt summary" fails to show the effect of the natalizumab on a subject with a demyelination disease such as the neuropathies and guillain-barre syndrome.

Under 103(a): As presented by examiner, a person having ordinary skill in the art would have found it obvious to determine the optimum values of result-effective variables known in the art. Therefore, applicant failed to rebut prima facie showing obviousness absent objective evidence such as side-by-side testing that would address the thrust of the examiner's rejection and establish unexpected results. Ex parte Raske, 28 USPQ2d 1304 (BPAI 1993).

Continuation of 13. Other:

Regarding "Exhibit A", MPEP section 716 states that when any claim of an application or a patent under reexamination is rejected or objected to, any evidence submitted to traverse the rejection or objection on a basis not otherwise provided for must be by way of an oath or declaration under 37 CFR 1.132 Affidavits or declarations traversing rejections or objections.
